"Listen close and you can almost hear the buffalo"

"There's a thundering herd of history behind this Daisy B·B Gun—the Buffalo Bill Scout™!" That's Bill Cody talking, grandson of the famous plainsman.

"It's a 'Spittin' Image®' loaded with authentic details. And check the presentation—grade features: simulated plating and engraving, Grandad's name on the receiver, special commemorative medallion.

"You'd be proud to hang it in a collector's rack in your room. Best of all, you and your dad can enjoy the fun of shooting *together* (even indoors...with a box filled with paper to hold your target and a blanket for a backstop)!"

EXCITING BRAND-NEW ISSUE PROBES MYSTERY OF UFO FLYING SAUCERS

THEY CAME FROM THE DEEP

Called forth from the ocean depths, they rose up and stalked through the village, powerless to stop the supernatural power that brought them there. Read about them in next month's BORIS KARLOFF TALES OF MYSTERY.

TARZAN OF THE APES

Based on the famous story by Edgar Rice Burroughs, next month's issue is as intriguing as the title itself — **Tarzan and the Tarzan Twins.**

BABY SNOOTS IN JAIL?

Uptite Mouse starts a one-mouse protest to save his pal from the clutches of the law, in the next issue of BABY SNOOTS—it's a trunkful of fun!

WINGS OF FEAR

It flies by full moonlight and leaves the mark that Barnabas hoped would never be seen again. And now Barnabas Collins himself has become a victim of the night — a willing victim! DARK SHADOWS will haunt you — next month!

WATCH FOR IT NEXT MONTH

FLYING SAUCERS! One of our most tantalizing mysteries still remains unsolved. Accounts of strange sightings were recorded thousands of years ago and persist to this day. Now Gold Key brings you a fascinating collection of UFO stories. Read about UFOs over Russia, submarine flying saucers, snowmen from the sky, UFOs that may be watching our lunar missions. Don't miss UFO FLYING SAUCERS — it's a space spectacular!

THEY'RE NOT KIDDING

It's Junior Government Day and the small fry are taking over the affairs of State. It's only for one day, so what kind of jam can they stick their fingers into? A traffic jam! Read about the big-time doings by small-scale experts in THE GOVERNOR AND J. J.

As a DIETITIAN

Fancy or plain, flavorable food for good nutrition will be your goal if you choose to be a dietitian. As an administrative dietitian, you will plan and supervise the preparation of large-scale meals, buy the food and equipment, enforce sanitary and safety regulations, and prepare records in a hospital, school, or other institution.

Therapeutic dietitians plan and supervise the preparation of special meals for people on special diets. Other dietitians are employed by companies who process food or manufacture cooking equipment. Still others research the needs of persons with chronic illnesses, the aging population, and the unusual needs of space travelers.

To be a dietitian, you must earn a bachelor's degree in college, majoring in food and nutrition or institution management. To qualify for professional recognition, a one-year internship is recommended. You must have an aptitude for the sciences, particularly chemistry and mathematics, and be able to organize and manage work programs.

Because of community health programs and a greater use of hospitals, many dietitians will be needed. Experienced dietitians in hospitals earn around $1,000 a month, while school dietitians earn a little less.

As a VETERINARIAN

Animal antics and the health and care of pets and livestock will occupy your time, if you choose to be a veterinarian. As a doctor of veterinary medicine, you will treat diseases and injuries of animals, performing surgery when necessary. You will also use medicine and vaccines to keep diseases from spreading to other animals or humans.

Some veterinarians specialize in treating small animals and pets. Others specialize in the health and care of cattle, horses or poultry. Others work in public health programs inspecting meat, poultry and other food. Still other veterinarians carry on research in the prevention and treatment of both animal and human diseases.

To become a veterinarian, you must have at least two years of college followed by four years of study in a college of veterinary medicine. Good health and an understanding of and a genuine affection for animals are very necessary.

With population increases, more veterinarian services will be needed. The veterinarian in private practice generally earns the most. Those employed by state governments average around $12,000 a year, while those working in universities average about $14,000 a year.
